

Computer Society India Symposium | 2020

— *Envision the Future* —

Traversing through the Technologies of Tomorrow

SPONSORSHIP BROCHURE

September, 26th - 27th

#KasaAahePune

Why should you sponsor?

The Computer Society India Symposium (CSIS) is one of the annual flagship events of the IEEE Computer Society Student and Young Professional activities, organized by the various sections of India. Due to the global pandemic, CSIS'20 will be a virtual event hosted over 2-days in collaboration with the Pune Institute of Computer Technology (PICT) IEEE Student Branch - Computer Society Chapter.

It aims to design an interactive platform for student members and young professionals to enhance their technical, organizational, and industrial skills to shape and uplift their future. The symposium comprises informative seminars, intensive workshops, and various networking activities on a wide range of domains. It also aims at providing a platform for the participants to engage with eminent professionals, speakers, and experts of the nation while learning interactively. CSIS'20 waits with a bag full of surprises and a motive to shape the innovators of tomorrow.

Envision the Future Traversing through the Technologies of Tomorrow

"An eternal trait of men is the need for vision and readiness to follow it; and if men are not given the right vision, they will follow wandering fires."

– Sir Richard Livingstone

A vision is not a list of values or objectives. It is a lucid overture for the future and italicizes an awe-inspiring triumphant time to come. When you're able to see the future clearly, you're more likely to make it happen.

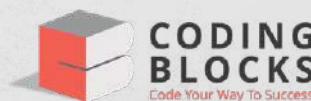

Amid all trials and tribulations, there is also room to manoeuvre: to modernize and harness technology's power to make greater strides. The force of evolution will build your vision upon reality. In times of rapid change, what is impossible today may be possible tomorrow! Visualize the future with as much detail as you can muster. It's time to crank up the dream machine once again.

About CSIS'19

The Computer Society India Symposium (CSIS), one of the most remarkable events of the IEEE Computer Society, was hosted at MES College of Engineering, Kuttipuram, Kerela, from 26 to 28 July 2019. The theme for CSIS'19 was '**Integrate to Differentiate!**' It aimed at bringing magnificent professionals and experts on a single platform to create an advantageous interface for all the student members and young professionals of various sections of the country. It focused on promoting the usage of the technologies in an innovative way to make a project unique.

Workshops on the most promising areas of Computer Science such as the Internet of Things (IoT), Entrepreneurship, Business Strategies, Artificial intelligence was conducted by magnificent experts, encouraging the participants to reach greater heights in their respective domains. Renowned Speakers such as Mr. Jofin Joseph, General Manager of India Office of FullContact Inc, Mr. Kailas, an Entrepreneur, Mr. Raveesh Agarawal, M.D of CookyTech, Ms. Shruti, a certified advanced developer joined us for the symposium. Apart from these, REM Scholars, founders of startups and corporates, craftsperson, social media influencers, mentors, and leaders with a wide area of expertise and a huge number of participants contributed to making CSIS'19 a grand success.

About Host

IEEE Pune Section

The beautiful city of Pune, also known as "the Oxford of the East" has emerged to become one of the major Information Technology Hub of India in the last few decades. IEEE Pune Section was established in the year 2010, before which it used to be a subsection under the IEEE Bombay Section. Since its formation, the section has made giant leaps to become one of India's finest sections. It comprises 19 student branches throughout the city of Pune, including around 1400 members, including 300 professional members. The section has grabbed a wide range of prestigious recognitions from the Region-10, including the R10 Best Membership Growth Medium Section Award and R10 Humanitarian Technology Activities Outstanding Section Award in the year 2019.

PICT IEEE Student Branch - Computer Society Chapter

The Pune Institute of Computer Technology (PICT) IEEE Student Branch - Computer Society Chapter, has endlessly extended its efforts to thrive towards excellence and greatness. It has left its mark in the Pune Section as one of the most successful Student Branches and is continuously raising the bar. Owing to its endeavors aiming at benefiting the community through technology, IEEE PICT SB was decorated with the Best Student Branch Award by IEEE India Council in 2015. It was also recognized as the Best IEEE Student Branch, Pune Section, in the year 2019. The Student Branch has undoubtedly grasped the motto of IEEE: "Advancing Technology for Humanity" in its truest sense and also has no left no stone unturned for the success of its mission.
